PROFILE

3rd-year B.Tech IT student specializing in Artificial Intelligence, Machine Learning, and Multi-Agent Systems. Proven experience developing scalable ML pipelines, autonomous AI agents, and AI governance frameworks. Strong in problem-solving, model evaluation, and prototyping under competitive timelines. Winner of Smart India Hackathon 2025.

TECHNICAL SKILLS

Programming: Python, C, C++

AI & Machine Learning: Machine Learning, Computer Vision, CNNs, Multi-Agent Systems, LangChain, Model Training & Evaluation

Data & Prototyping: NumPy, Pandas, TensorFlow, Data Preprocessing

Tools: Git, GitHub, Jupyter, AWS SageMaker

KEY PROJECTS

Fair Hiring Network (Multi-Agent AI System)

Jan 2026 – Apr 2026

- Developed a multi-agent AI system for technical skill verification to address trust issues in the Indian recruitment market.
- Designed system architecture utilizing specialized agents for skill verification, unbiased candidate evaluation, and automated testing.
- Prepared detailed system documentation and presented the solution at the HackJNU competition.
- Technologies:** Python, LangChain, Multi-Agent Frameworks, Machine Learning

AEGIS (AI Governance & Risk Layer)

Mar 2026

- Designed an AI governance layer intended to evaluate risks, enforce policies, and monitor autonomous AI agents.
- Architected solutions to protect IT infrastructure and financial institutions from errant agent behaviors.
- Created structural infographics highlighting system architecture for B2B target audiences.
- Technologies:** Python, System Design, AI Governance Frameworks

Skin Infection Detection System

Jan 2025

- Trained a CNN-based model to classify types of skin infections from images, achieving high accuracy in diagnosis.
- Handled dataset preprocessing, augmentation, and iterative model training to optimize performance.
- Technologies:** Python, CNN, TensorFlow, Pandas, NumPy

EDUCATION

Bachelor of Technology in Information Technology 2023 - 2027 (Currently in 3rd Year)

ABES Institute of Technology, Ghaziabad, India

ACHIEVEMENTS & CERTIFICATIONS

- **Winner, Smart India Hackathon (SIH) 2025:** College-level winner for designing a scalable, impact-oriented AI solution.
- **Hackathons:** Participated in HackJNU and various hackathons, developing end-to-end projects demonstrating problem-solving skills and teamwork.
- **Competitive Programming:** Actively monitor and improve technical performance on platforms such as LeetCode and Codeforces.
