PROFILE

Passionate Full-Stack Developer and 3rd-year B.Tech IT student specializing in creating dynamic, responsive web applications and scalable dashboards. Experienced in integrating complex backend APIs, AI inference models, and real-time data streams into user-friendly frontends. Winner of Smart India Hackathon 2025.

TECHNICAL SKILLS

Frontend: React.js, HTML, CSS, JavaScript, Responsive Design

Backend & Integration: Node.js, RESTful APIs, Python

Database & Cloud: SQL, AWS Lambda

Tools: Git, GitHub, VS Code

KEY PROJECTS

Smart Agriculture Farmer Dashboard

Sept 2025

- Built an interactive web dashboard for farmers with multilingual support, real-time logs, and accessible controls.
- Integrated frontend interfaces with AWS Lambda and backend IoT services to enable automated irrigation controls.
- Implemented SMS & voice alert triggers directly from the web application interface.
- Technologies:** React.js, Node.js, HTML, CSS, JavaScript, AWS Lambda

Disaster Alert Web Platform

May 2025

- Developed a full-stack web platform visualizing risk zones and potential disaster-affected areas.
- Integrated machine learning inference APIs with an interactive UI to display near real-time situational awareness data.
- Ensured high responsiveness and cross-device compatibility for urgent alert access.
- Technologies:** React.js, Python API, HTML, CSS, JavaScript

Skin Infection Detection Portal

Jan 2025

- Built an end-to-end web interface allowing users to securely upload images for health diagnostics.
- Connected frontend interface with a backend CNN TensorFlow model to display instant diagnostic results.
- Technologies:** HTML, CSS, JavaScript, Python Backend

EDUCATION

Bachelor of Technology in Information Technology 2023 - 2027 (Currently in 3rd Year)

ABES Institute of Technology, Ghaziabad, India

ACHIEVEMENTS & CERTIFICATIONS

- Winner, Smart India Hackathon (SIH) 2025:** College-level winner for designing a scalable, impact-oriented AI solution.

- **Hackathons:** Participated in HackJNU and various hackathons, developing end-to-end projects demonstrating problem-solving skills and teamwork.
- **Competitive Programming:** Actively monitor and improve technical performance on platforms such as LeetCode and Codeforces.
