PROFILE

Detail-oriented Data Analyst and 3rd-year B.Tech IT student with expertise in data manipulation, visualization, and building predictive models. Experienced in transforming raw datasets into actionable insights, developing ROI analyses, and visualizing spatial and temporal data. Winner of Smart India Hackathon 2025.

TECHNICAL SKILLS

Programming & DB: Python, SQL, C++

Data Analysis & Viz: Pandas, NumPy, Seaborn, Matplotlib, Grafana, EDA, Feature Engineering

Machine Learning: Predictive Modeling, A/B Testing Validation

Tools: Jupyter Notebook, InfluxDB, Excel, Git

KEY PROJECTS

B2B Recruitment Verification Analytics

Jan 2026 – Apr 2026

- Planned a B2B business model leveraging data analytics to address verification gaps in the recruitment market.
- Formulated a pitch involving weighted portfolio scores and quantitative ROI analysis for prospective clients.
- Analyzed factual data scraped from programming profiles (LeetCode, Codeforces) to build robust candidate evaluation metrics.
- Technologies:** Python, Pandas, SQL, Data Analytics, ROI Modeling

AI-Based Disaster Prediction & Alert System

May 2025

- Developed a platform that analyzes and visualizes risk zones from satellite imagery using data-driven image analysis.
- Processed large-scale geospatial data to identify potential disaster-affected areas, improving situational awareness.
- Implemented data acquisition and preprocessing pipelines for near real-time visualization.
- Technologies:** Python, OpenCV, Pandas, NumPy, Machine Learning

Smart Agriculture Data Monitoring

Sept 2025

- Managed time-series data logging for IoT sensors measuring soil moisture and weather conditions.
- Built data visualization dashboards to track crop growth monitoring and early disease detection metrics.
- Technologies:** Python, Pandas, InfluxDB, Grafana, AWS

EDUCATION

Bachelor of Technology in Information Technology 2023 - 2027 (Currently in 3rd Year)

ABES Institute of Technology, Ghaziabad, India

ACHIEVEMENTS & CERTIFICATIONS

- **Winner, Smart India Hackathon (SIH) 2025:** College-level winner for designing a scalable, impact-oriented AI solution.
- **Hackathons:** Participated in HackJNU and various hackathons, developing end-to-end projects demonstrating problem-solving skills and teamwork.
- **Competitive Programming:** Actively monitor and improve technical performance on platforms such as LeetCode and Codeforces.
